A. Bidding Procedures:

Each bidder, by submitting its bid, represents that it understands the scope of work and its obligation with respect to performance. All bidders must submit their proposals on the forms provided. To be valid, a bid must be received at the place and before the time designated, or prior to any extension granted by an addendum. No bidder may withdraw, adjust or modify its bid for a period of sixty (60) days after the acceptance of bids. Addenda will be provided to each bidder of record and will be placed on file at the location for bidding documents. Should there be reasons why the contract cannot be awarded within the specified period, the time may be extended by mutual agreement between the Owner and the bidder.

In conformance with Public Contract Code Section 7106, a Noncollusion Affidavit is included in the Proposal. Signing the Proposal shall also constitute signature of the Noncollusion Affidavit.

B. Examination of Bidding Documents:

1. All interpretations and/or corrections of the bidding documents shall be in writing by The Holt Group, Inc., in the form of addenda. No other interpretations or corrections shall be considered valid for bidding purposes. Any bidder planning to submit a proposal is responsible for examining with appropriate care the complete specifications and all addenda, and is also responsible for informing itself with respect to all conditions which might in any way affect the performance of any work.
2. The Contract Documents contain the provisions required for the construction of the project. Information obtained from an officer, agent, or employee of the Owner or any other person shall not affect the risks or obligations assumed by the Contractor or relieve the Contractor from fulfilling any of the conditions of the contract.

C. Qualification of Bidders:

1. Each bidder, by submitting its bid, represents that it is qualified to perform the scope of the work for which it submits its proposal. It further represents that it can do so in the time specified. Each bidder shall submit with its proposal an experience statement substantially in the form included in Proposal Forms. The Owner may make such investigations as deemed necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to the Owner all such information and data for this purpose as the Owner may request. The Owner reserves the right to reject any bid if the evidence submitted by, or investigation of such bidder fails to satisfy the Owner that such bidder is properly qualified to carry out the obligations of the contract and to complete the work contemplated therein. Conditional or qualified bids will not be accepted.

D. Preparation and Submission of Proposals:

1. Proposals shall be submitted on the unbound copy of the forms provided with the bound specifications. The copy shall be properly executed as described above, and any interlineations, alterations, or erasures shall be formally explained and initialed by the bidder. Failure to comply with this requirement may be cause for rejection of the proposal. Each proposal shall show the full legal name and business address of the bidder, including its street address, and shall be signed with the usual signature

of the person or persons authorized to bind the bidder and shall be dated. Proposals by a partnership or joint venture shall list the full names and addresses of all partners or joint venturers. The State of Incorporation shall be stated in the proposal when the corporation is a party as a bidder. The name of each signatory shall be typed or otherwise clearly imprinted below each signature. When requested by the Owner, satisfactory evidence of the authority of any signatory on behalf of the bidder shall be furnished. The proposal shall be enclosed in a sealed envelope, distinctly marked "proposal" and bearing the project title as given and the name and address of the bidder.

2. All bids must be made on the required bid form. All blank spaces for bid prices must be filled in, in ink or typewritten, and the bid form must be completed and executed when submitted. Only one copy of the bid form is required.

E. Site Inspection and Conditions:

1. In addition to examination of the specification, each prospective bidder shall make whatever other arrangements are necessary to become fully informed regarding all existing and expected conditions and matters which could affect any work or performance of any work in any way, and especially the cost of performing any work. Arrangements may be made for visiting the project area by contacting the Engineer. Any failure to fully investigate the site or the foregoing conditions shall not relieve the bidder from the responsibility for estimating properly the difficulty or cost of successfully performing any work. Neither the Owner nor any of its representatives or agents assume the responsibility for any understanding or representation made by the Owner or any of its representatives or agents prior to the execution of a contract pursuant to the specification.
2. Bidders must satisfy themselves of the accuracy of the estimated quantities on the drawings by examination of the site and a review of the drawings and specifications including addenda. After bids have been submitted, the bidder shall not assert that there was a misunderstanding concerning the quantities of work or of the nature of the work to be done.

F. Proposal Openings and Award of Contracts:

Proposals will be kept unopened until the time stated for opening of proposals. At such time, the contents of the proposals will be made public. No responsibility shall be attached to the Owner or any of its officers, employees or representative for the premature opening of proposals. All bidders or their authorized representatives are invited to be present at the proposal opening. The successful bidder will be notified in writing by the Owner of the award of contract within sixty (60) calendar days after opening of proposals. Accompanying the Owner's Notice of Award will be the contract which the successful bidder will be required to sign and return, together with the performance bond, payment bond, and insurance documents. All of the above documents shall be returned to the Owner within ten (10) calendar days following receipt of the Notice of Award. The Owner will promptly determine whether such contract, bonds, certificates of insurance and other required documents are as required by the specifications, and upon such determination will forward a fully signed copy of the contract and a Notice to Proceed to the successful bidder, provided that the Owner reserves the right to issue a Notice to Proceed at any time prior to forwarding such contract. The failure of any bidder to whom the Owner may award the contract as aforesaid to properly sign and return to the Owner the contract, together with the required performance bond, payment bond, certificates of insurance and other documents within the specified time period, shall entitle the Owner to declare a breach of contract by such bidder, to award the contract to another bidder in accordance with the provisions of the specifications, and

to declare a forfeiture of the bidders proposal security accompanying its proposal. In the event of such failure, the Owner will suffer damage, the amount of which is difficult, if not impossible, to ascertain, and the Owner shall therefore be entitled to retain the amount of such cashier's or certified check, or to enforce the provisions of said bid bond in the amount thereof, as liquidated damages for such breach of contract.

The Owner will return the bonds of all except the three lowest responsible bidders. When the agreement is executed, the bonds of the two remaining unsuccessful bidders will be returned. The bid bond of the successful bidder will be retained until the performance bond, payment bond and insurance documents have been executed and approved, after which it will be returned. A cashier's check may be used in lieu of a bid bond.

G. Acceptance or Rejection of Bids:

The contract will be awarded to the lowest, responsive, responsible bidder, provided that all bidders acknowledge the right of the Owner to accept or reject any and all bids and to waive any informality or irregularity in any bid received.

H. Worker's Compensation Notice:

I. Proposal Security:

No proposal will be considered unless it is accompanied by a proposal security in the form of a certified check or a cashier's check, payable to the order of the Owner for a sum not less than ten percent (10%) of the total bid as set forth in the bidder's proposal, or a bidder's bond in the same amount executed as surety by a corporation acceptable to the Owner and authorized to issue such surety bond in the State of California. Such bond shall be in substantial conformity with the form included in Section III, Proposal Forms, of the specifications.

J. Bonds and Insurance Policies:

The bidder to whom the contract award is made shall furnish to the Owner a performance bond and a payment bond, executed as surety by a corporation acceptable to the Owner and authorized to issue surety bonds in the State of California. Such bonds shall be substantially in the form included in Section IV of the specifications. Such performance bond and payment bond shall be for one hundred percent (100%) of the total bid as set forth in the bidder's proposal. The entire cost of these bonds shall be borne by the successful bidder. The successful bidder shall, at the time of execution of the contract, deliver to the Owner two (2) copies of the certificates, on the carrier's forms, attesting to the fact that the required policies of insurance have been obtained.

In accordance with §4107 of the California Government Code, no Contractor whose bid is accepted shall without consent of the Owner either: (a) Substitute any person as a subcontractor in place of the subcontractor designated in the original bid; or (b) Permit any such subcontract to be assigned or transferred, or allow it to be performed by anyone other than the original subcontractor listed in the bid; or (c) Sublet or subcontract any portion of the work in excess of one half of one percent (0.50%) of the Contractor's total bid as to which his original bid did not designate a subcontractor. Penalties for failure to comply with the foregoing sections of the California Government Code are set forth in §§4106, 4110, and 4111 of the Government Code. In the case where a bidder claims an inadvertent clerical error in listing subcontractors, a notice of the claim must be submitted to the Engineer in writing within two (2) working days after the time of the bid opening, and copies sent to the subcontractors involved.

- **March 01, 2015:** **NO** contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with DIR. Registration with DIR becomes mandatory on March 01, 2015 for bids on a public works contract.
- **April 01, 2015:** **NO** contractor or subcontractor may work on a public works project unless registered with DIR. Registration with DIR becomes mandatory on April 01, 2015 for performing work on a public works contract.

An awarding body may NOT accept a bid or enter into a contract for public works from an unregistered contractor.

BID PROPOSAL REQUIREMENTS,

- **No contractor** or subcontractor may be listed on a bid proposal for a public works project (submitted on or after March 01, 2015) unless registered with the California Department of Industrial Relations pursuant to the California Labor Code section 1725.5 [with limited exception from this requirement for bid purposes only under California Labor Code section 1771.1(a)].

ELECTRONIC PAYROLL RECORDS,

All contractors and subcontractors must furnish electronic payroll records directly to the Labor Commissioner (aka California Division of Labor Standards Enforcement). The phased-in timetable for this requirement is as follows:

- **June 20, 2014 [Immediate]:** Any project that was being monitored by the CMU/Labor Commissioner prior to the adoption of SB 854 will continue to be monitored by the Labor Commissioner afterward; and the contractors on those projects must continue to furnish certified payroll records to the Labor Commissioner until the project is complete.
- **April 01, 2015:** For all new projects awarded on or after this date, the contractors and subcontractors must furnish electronic certified payroll records to the Labor

- **Exceptions:** The Labor Commissioner may (but is not required to) excuse contractors and subcontractors from furnishing electronic certified payroll records to the Labor Commissioner on a project that is under jurisdiction of one of the four legacy California DIR-approved labor compliance programs (Caltrans, City of Los Angeles, Los Angeles Unified School District, and the County of Sacramento) or that is covered by a qualifying Project Labor Agreement (PLA).

SECTION III -- PROPOSAL FORMS

2 -- SCHEDULE OF ITEMS AND PRICES

**PROPOSAL
FOR
HEBER PUBLIC UTILITY DISTRICT
2017 SANITARY SEWER MANHOLE REHABILITATION PROJECT**

TO THE HEBER PUBLIC UTILITY DISTRICT, AS OWNER

In accordance with the OWNER'S INVITATION FOR PROPOSALS, the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor and incidentals new and free from defect required for the above stated project as set forth in the Plans, Specifications and contract documents and any addenda, thereto, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the work site, Plans, Specifications, INSTRUCTIONS TO BIDDERS, Addendum(a), and all other contract documents. If this proposal is accepted for award, BIDDER agrees to enter into a contract with the Owner at the unit and/or lump sum prices set forth in the following BID SCHEDULE. The Bidder shall include all costs associated with all items contained within the specifications or any issued addenda. In the event items are identified within the contents of the specifications which are not clearly designated within the bid schedule, those items shall be regarded as incidental and the associated costs shall be assigned to the most appropriate Bid Item. The BIDDER understands that failure to enter into a contract in the manner and time prescribed will result in forfeiture to the Owner of the BIDDER'S BOND accompanying this proposal.

BIDDER understands that a bid is required for the entire work that the estimated quantities set forth in the BID SCHEDULE are solely for the purpose of comparing bids, and that final compensation under the contract will be based upon the actual quantities of work satisfactorily completed. THE OWNER RESERVES THE RIGHT TO INCREASE OR DECREASE THE AMOUNT OF ANY QUANTITY ILLUSTRATED AND TO DELETE ANY ITEM FROM THE CONTRACT. If the amount of a bid quantity is decreased more than twenty-five percent (25%) for an item with a value greater than \$10,000.00, then the unit price of that item is subject to negotiation. The Contractor shall substantiate the increase in unit price by demonstrating the impact in terms of costs resultant from the decreased quantities. It is agreed that the unit and/or lump sum prices bid include all appurtenant expenses, bonds, insurance, taxes, royalties, transportation, permits, and fees.

In case of discrepancies in the amounts bid, unit prices shall govern over extended amounts, and the accurate and mathematically correct summation of the total bid item amounts shall govern over the total for comparison summation figure and words listed on the proposal form.

If awarded the Contract, the undersigned further agrees that in the event of the BIDDER'S default in executing the required contract and filing the necessary performance bond, payment bond and insurance certificates within ten (10) calendar days after the date of the issuance of the notice of award to the BIDDER, the proceeds of the security accompanying this bid shall become the property of the Owner and this bid and the acceptance hereof may, at the Owner's option, be considered null and void.

The Bidder has examined and carefully studied the Bidding Documents, the other related data identified in the Bidding Documents, and the following Addendum(a), receipt of which is hereby acknowledged.

 - 16.1.2 Unknown physical condition at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents.
- 16.2 The Owner shall promptly investigate the conditions, and if it is found that such conditions do so materially differ and cause an increase or decrease in the cost of, or in the time required for, performance of the work, an equitable adjustment hereunder shall be made and the Contract Documents shall be modified by a Change Order. Any claim of the Contractor for adjustment hereunder shall not be allowed unless the required written notice has been given; provided that the Owner may, if the Owner determines the facts so justify, consider and adjust any such claims asserted before the date of final payment.

SECTION V -- GENERAL CONDITIONS

17 -- SUSPENSION OF WORK, TERMINATION, AND DELAY

- 17.1 The Owner may suspend the work or any portion thereof for a period of not more than ninety (90) days or such further time as agreed upon by the Contractor, by written notice to the Contractor and the Engineer which shall fix the date on which work shall be resumed. The Contractor will resume that work on the dates so fixed. The Contractor will be allowed an increase in the Contract Price or an extension of the contract time, or both, directly attributed to any suspension.
- 17.2 If the Contractor is adjudged as bankrupt or insolvent, or makes a general assignment for the benefit of its creditors, or if a trustee or receiver is appointed for the Contractor or for any of its property, or if the Contractor files a petition to take advantage of any debtor's act, or to re-organize under the bankruptcy or applicable laws, or repeatedly fails to supply sufficient skilled workmen, or suitable material, or equipment, or repeatedly fails to make prompt payments to subcontractors or for labor, materials or equipment, or disregards the authority of the Engineer, or otherwise violates any provision of the Contract Documents, then the Owner may, without prejudice to any other right or remedy, and after giving the Contractor and its surety a minimum of ten (10) days from delivery or a written notice, terminate the services of the Contractor and take equipment and machinery thereon owned by the Contractor, and finish the work by whatever method the Owner may deem expedient. In such case the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the Contract Price exceeds the direct and indirect costs of completing the project, including compensation for additional professional services, such excess shall be paid to the Contractor. If such costs exceed unpaid balance, the Contractor will pay the difference to the Owner. Such costs incurred by the Owner will be determined by the Engineer and incorporated in a Change Order.
- 17.3 Where the Contractor's services have been so terminated by the Owner, said termination shall not affect any right of the Owner against the Contractor then existing or which may thereafter accrue. Any retention or payment of moneys by the Owner due the Contractor will not release the Contractor from compliance with the Contract Documents.
- 17.4 After ten (10) days from delivery of a written notice to the Contractor and the Engineer, the Owner may, without cause and without prejudice to any other right or remedy, elect to abandon the project and terminate the Contract. In such case the Contractor shall be paid for all work executed and any expense sustained plus reasonable profit.

- 17.5 If, through no act or fault of the Contractor, the work is suspended for a period of more than ninety (90) days by the Owner, or under an order of court or other public authority, or the Engineer fails to act on any request for payment within sixty (60) days after it is submitted, or the Owner fails to pay the Contractor substantially the sum approved by the Engineer or awarded by arbitrators within sixty (60) days after its approval and presentation, then the Contractor may, after ten (10) days from delivery of a written notice to the Owner and the Engineer, terminate the contract and recover from the Owner payment for all work executed and all expenses sustained. In addition and in lieu of terminating the contract, if the Engineer has failed to act on a request for payment or if the Owner has failed without good cause to make any payment as aforesaid, the Contractor may, upon ten (10) days written notice to the Owner and the Engineer, stop the work until paid all amounts then due, in which event and upon resumption of the work, Change Orders shall be issued for adjusting the contract price or extending the contract time or both to compensate for the costs and delays attributable to the stoppage of the work.
- 17.6 If the performance of all or any portion of the work is suspended, delayed, or interrupted as a result of a failure of the Owner or Engineer to act within the time specified in the Contract Documents, or if no time is specified, within a reasonable time, an adjustment in the contract price or extension of the contract time, or both, shall be made by Change Order to compensate the Contractor for the costs and delays necessarily caused by the failure of the Owner or Engineer.

SECTION V- GENERAL CONDITIONS

18 -- PAYMENT TO CONTRACTOR

- 18.1 At least ten (10) days before each progress payment falls due (but not more often than every thirty-one (31) calendar days), the Contractor will submit to the Engineer a partial payment estimate filled out and signed by the Contractor covering the work performed during the period covered by the partial payment estimate and supported by such data as the Engineer may reasonably require. If payment is requested on the basis of materials and equipment not incorporated in the work but delivered and suitably stored at or near the site, the partial payment estimate shall also be accompanied by such supporting data, such as paid invoices, or other written evidence satisfactory to the Owner, as will establish the Owner's interest therein, including applicable insurance. The Engineer within ten (10) days after receipt of each partial payment estimate, shall either indicate in writing approval of payment and present the partial payment estimate to the Owner, or return the partial payment estimate to the Contractor indicating in writing the reasons for refusing to approve payment. In the latter case, the Contractor may make the necessary corrections and resubmit the partial payment estimate. The Owner will, within fifteen (15) days of presentation of an approved partial payment estimate, pay the Contractor a progress payment on the basis of the approved partial payment estimate less the retainage. The retainage shall be an amount equal to ten (10%) of said estimate.
- 18.2 All progress payments and the final payment shall be processed on a "Partial Payment Estimate" form similar to A.I.A. Document G702.
- 18.3 Prior to substantial completion, the Owner, with approval of the Engineer and with the concurrence of the Contractor, may use any completed or substantially completed portions of the work.
- 18.4 The Owner shall have the right to enter the premises for the purpose of doing work not covered by the Contract Documents. This provision shall not be construed as relieving the Contractor of the sole responsibility for the care and protection of the work, or the restoration of any damaged work except such as may be caused by agents or employees of the Owner.
- 18.5 Upon completion and acceptance of the work, the Engineer shall issue a certificate attached to the final payment request that the work has been accepted under the conditions of the Contract Documents. The entire balance will be due the Contractor forty-five (45) days after the timely recording of a Notice of Completion, or ninety (90) days after completion and acceptance of the work, whichever is earlier.
- 18.6 The Contractor will indemnify and save the Owner or the Owner's agents harmless from all claims growing out of the lawful demand of subcontractors, laborers, workmen, mechanics, materialmen, and furnishers of machinery and parts thereof, equipment, tools, and all supplies incurred in the furtherance of the performance of the work. The Contractor shall, at the Owner's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so, the Owner may, after having notified the Contractor, either pay unpaid bills or withhold from the Contractor's unpaid compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed in accordance with terms of the Contract Documents, but in no event shall the provisions of this sentence be construed to impose any obligations

upon the Owner to either the Contractor, the Contractor's Surety, or any third party. In paying any unpaid bills of the Contractor, any payment so made by the Owner shall be considered as a payment made under the Contract Documents by the Owner to the Contractor and the Owner shall not be liable to the Contractor for any such payments made in good faith.

- 18.7 The Engineer may withhold or, on account of subsequently discovered evidence, nullify the whole or part of any approved partial payment estimate to such extent as may be necessary to protect the Owner from loss on account of:
- a. Defective work not remedied.
 - b. Claims filed or reasonable evidence indicating probable filing of claims.
 - c. Failure of Contractor to make payments properly to Subcontractors or for material or labor.
 - d. A reasonable doubt that the work can be completed for the balance then unpaid.
 - e. Damage to another Contractor.
 - f. Performance of work in violation of the terms of the Contract Documents.
- 18.9 Where work on lump sum or unit price items is substantially complete but lacks clean-up and/or corrections ordered by the Engineer, amounts shall be deducted from lump sum items in partial payment estimates to amply cover such clean-up and corrections.
- 18.10 Public Contract Code Section 22300 allows for an escrow in lieu of retention provision which may be enacted at the discretion of the Contractor.
- 18.11 On lump sum projects the Contractor shall present a comprehensive breakdown of the contract price as a basis for payment for review and approval by the Engineer. The comprehensive breakdown shall be submitted to the Engineer within ten (10) days of the issuance of the Notice to Proceed.

SECTION V -- GENERAL CONDITIONS

19 -- ACCEPTANCE OF FINAL PAYMENT AS RELEASE

Such bonds shall be executed by the Contractor and a corporate bonding company licensed to transact such business in the State of California and named on the current list of "Surety Companies Acceptable on Federal Bonds" as published in the Treasury Department Circular Number 570. The expense of these bonds shall be borne by the Contractor. If at any time a surety on any such bond is declared bankrupt, or loses its right to do business in the state in which the work is to be performed, or is removed from the list of Surety Companies accepted on Federal Bonds, Contractor shall within ten (10) days after notice from the Owner to do so, substitute an acceptable bond (or bonds) in such form and sum and signed by such other surety or sureties as may be satisfactory to the Owner. The premiums on such bonds shall be paid by the Contractor. - Gravel Pad:** A layer of washed gravel at least three (3) inches deep which extends from the intersection with the public paved road surface for the full width of the unpaved exit surface for a distance of at least 50 feet. Identify gravel size in inches, the pad width in feet, including the length and depth of the gravel below.

- Paved Surface:** Extends from the intersection with the paved public road surface for the full width of the unpaved access road for at least 50 feet to allow mud and dirt to drop off of vehicles before exiting the site. Identify the width and length of the paved surface below in feet.

Mud and dirt deposits within an urban area shall be cleaned immediately when trackout or carryout extends a cumulative distance of 50 linear feet or more otherwise clean up must be at the end of the workday.

The project is located in

An Urban Area

Identify the urban area by location, description etc. below.

Minimum cleanup frequency will be at the end of the workday and removed immediately if carryout and trackout, extends beyond 50 feet.

Non Urban Area

Identify the non urban area by location, description etc. below.

At the end of the workday

Optional - Clean up Method

Manually sweeping and picking up.

Mechanical sweeping with a rotary brush or broom accompanied or preceded by water.

Describe types of equipment that will be used.
