August 10, 2020

Attention: Mrs. Fischer

Subject: July 2020 Monthly Report

On the billing cycle ending on the 22nd of July 36,961,000 gallons of water were used by our consumers, an average of 1,232,000 gallons was used per day.

On July 7, 2020, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on July 21, 2019 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 53 ppb for the Mc Cabe site and 44 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

On July 7, 2020 a minor chlorine leak was detected in the outlet chlorine feed line. The plant was briefly placed offline and the necessary repairs were made. There was no adverse effect to the water quality or violation because of this incident.

If you have any questions, please contact me at (760) 427-4685

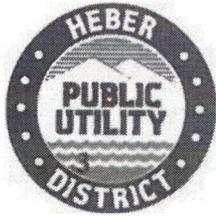

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".

Francisco Rodriguez

Chief Operator
