June 09, 2020

Attention: Mrs. Fischer

Subject: May 2020 Monthly Report

On the billing cycle ending on the 22nd of May 31,112,000 gallons of water were used by our consumers, an average of 1,003,000 gallons was used per day.

On May 12, 2020, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on May 20, 2020 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 55 ppb for the Mc Cabe site and 45 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

On May 18, 2020 started draining pond #3 for maintenance purposes. The sludge will be left to dry and then removed. Inspection of the concrete basin will be conducted once the dry sludge is removed. Once inspection is completed and if no issues are found, the pond will be placed back in service.

If you have any questions, please contact me at (760) 427-4685

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".
