Attention: Mrs. Fischer

Subject: April 2019 Monthly Report

On the billing cycle ending on the 23rd of April 22,819,000 gallons of water were used by our consumers, an average of 760,000 gallons was used per day.

On April 8, 2019, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on April 29, 2019 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 49 ppb for the Mc Cabe site and 45 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

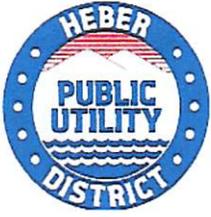

On April 18, 2019 Pond #1 was drained and dry sludge was removed. There was no visible damage to the concrete structure. Pond #1 is currently back in operation.

If you have any questions, please contact me at (760) 427-4685.

Respectfully,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".

Francisco Rodriguez  
Chief Operator  
Heber Public Utility District
