January 08, 2019

Attention: Mrs. Fischer

Subject: December 2018 Monthly Report

On the billing cycles ending on the 23rd of December 18,403,000 gallons of water were used by our consumers, an average of 593,000 gallons was used per day.

On December 4, 2018, collected the monthly Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on December 17, 2018 and were once again below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 42.2 ppb for the Mc Cabe site and 32.9 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

On December 21, 2018 the 1.7 million-gallon (mg) tank was placed back in service after the minor corrosion were repaired by Pacific Hydrotech sub contractor. The 1.7 mg tank was disinfected and bacteriological testing was conducted prior to placing the tank back in service.

If you have any questions, please contact me at (760) 427-4685

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".

Francisco Rodriguez

Chief Operator
