Attention: Mrs. Fischer

Subject: Parks New Lawn Tractor

The recent purchase of the Kobota zero turn lawn mower has improved the productivity of staff, cutting their time by approximately fifty percent. For example, cutting the grass on Tito Park used to take around four hours, now it is completed in less than two hours. In addition, the zero turn makes it more maneuverable around trees, benches and other obstacles preventing the driver to go back and forth around objects. The mower has a 54-inch deck makes it efficient when cutting and more importantly safer when cutting in sloped areas preventing tip overs.

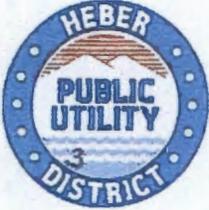

Staff is very satisfied with the mower as they can complete their work faster and have more time to make repairs and improvements to the parks.

If you have any questions, please contact Francisco Rodriguez at (760) 427-4685

September 7, 2016

Attention: Mrs. Fischer

Subject: August 2016 Monthly Report

On the billing cycles ending on the 23rd of August 43,487,000 gallons of water were used by our consumers, an average of 1,449,000 gallons was used per day.

On August 1, 2016 collected the third quarter Trihalomethanes (TTHM's) and Haloacetic Acids (Haa5) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on August 9, 2016 and were above the maximum contaminant levels (MCL) for the Haa5 and TTHM's. The running annual average (RAA) MCL for Haa5 is 60 parts per billion (ppb) and for the 3rd quarter of 2016 we attained a RAA of 63 ppb for one site. The RAA MCL for TTHM's is 80 ppb and attained 91 ppb for site #1. Heber Public Utility District is out of Compliance and will be mailing out public notice on these violations.

On August 2, 2016 drained the 1.75-million-gallon storage tank. This Tank will be refurbished as part of the water treatment plant expansion project. The .75-million-gallons storage tank has been refurbished and is awaiting disinfection and additional required test prior to being placed back online.

On August 30, 2016 drained pond number 2 and 3 due to Pacific Hydrotech will be installing a 30-inch pipe between ponds. These 30-inch pipes will replace the existing 12-inch pipes and will allow more flow and pond level equalization.

If you have any questions, please contact me at (760) 427-4685
