May 10, 2016

Attention: Mrs. Fischer

Subject: April 2016 Monthly Report

On the billing cycle ending on the 23<sup>rd</sup> of April 31,271,000 gallons of water were used by our consumers, an average of 1,040,000 gallons was used per day.

On April 20, 2016 on the south east corner of pond #1 moisture was notice by Pacific Hydrotech Corporation. Pacific Hydrotech Corporation had recently excavated and installed the static mix station adjacent to pond #1 which is part of the Water Treatment Plant expansion. The static mix station had not been covered as the piping is yet to be installed. We immediately started draining pond #1 to prevent the wall of the pond from collapsing. Once the pond was drained there were some visible offsets and some cracks. HPUD engineers, the Holt Group will conduct a cost estimate for repairs.

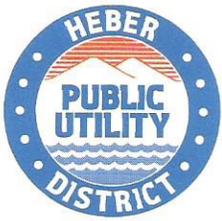

On April 20, 2016 HPUD staff trenched and relocated the chlorine injection PVC line. The old, deteriorated line was abandon in place and the new one is now in service.

If you have any questions, please contact me at (760) 427-4685.

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".

Francisco Rodriguez  
Chief Operator
