January 11, 2016

Attention: Mrs. Fischer

Subject: December 2015 Monthly Report

On the billing cycles ending on the 25th of December 27,594,000 gallons of water were used by our consumers, an average of 890,129 gallons was used per day.

On December 2, 2015 Pond #2 was drained and dry sludge was removed. There was no visible damage to the bottom of plastic liner. Pond #2 is currently back in operation.

On December 30, 2015 Hypochlorite Operator interface (touch screen) malfunction preventing any chlorine adjustments to be made. A new operator interface was in our stock and was replaced. The chlorine residual remained within the required parameters and thus no violations or water quality issues were attained because of this incident.

If you have any questions, please contact me at (760) 427-4685

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".
