This project is moving forward and they are building 28 new homes. They have begun installing the water and sewer lines. Please read the report prepared by The Holt Group which is attached to this report.

Temporary Hydrant Meter Consumption

As you know we had a customer with four meters pulling water from temporary hydrant meter services. This company has disconnected from our service. They were able to dig the wells that were needed and the water met their quality needs. They are disconnecting this week. We estimate a total revenue from this customer at approximately \$55,000.
