Attention: Madeline
General Manager

Subject: August 2023 Monthly Report

On the billing cycles ending on the 23rd of August 31,134,000 gallons of water were used by our consumers, an average of 1,004,000 gallons was used per day.

On August 22, 2023, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on August 29, 2023 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 64 ppb for the Mc Cabe site and 45 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

On July 29, 2023 aerator #2 failed. An electrician from 5 Star Electric troubleshooted the aerator and found it had a bad motor. The manufacture was notified of the electrical issue and will schedule a trip on October 2023 to replace this unit. Aerator #2 is still under warranty.

If you have any questions, please contact me at (760) 427-4685

Sincerely,

A handwritten signature in blue ink, appearing to read "Francisco Rodriguez".
