Attention: Madeline
General Manager

Subject: February 2026 Monthly Report

On the billing cycle ending on the 19th of February 18,466,000 million gallons of water were used by our consumers, an average of 615,000 thousand gallons was used per day.

On February 11, 2026, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on February 18, 2026 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 53 ppb for the Mc Cabe site and 42 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

If you have any questions, please contact me at (760) 427-4685

Respectfully,
