Attention: Madeline
General Manager

Subject: March 2026 Monthly Report

On the billing cycle ending on the 21st of March 22,916,000 gallons of water were used by our consumers, an average of 764,000 gallons was used per day.

On March 4, 2026, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on March 9, 2026 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 54 ppb for the Mc Cabe site and 43 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

If you have any questions, please contact me at (760) 427-4685
